AUTHOR'S/SPONSOR'S STATEMENT OF INTENT

Chapter 36, Water Code, authorizes a groundwater conservation district to adopt rules and issue permits related to the regulation and management of groundwater resources located within its boundaries. Although Chapter 36 sets forth a requirement that rules be adopted only after notice and hearing, as well as makes reference to a hearings process for permit applications, the statute is silent on most aspects of the exact nature of the notice and hearings process that districts should utilize in rulemaking and permit considerations.

Since groundwater conservation districts are not subject to the Administrative Procedures Act, it is necessary to clarify and prescribe the notice and hearing process to be utilized by the districts. It is also necessary to clarify that, where appropriate, groundwater conservation districts may utilize alternative dispute resolution (ADR) procedures in the permitting process in order to facilitate resolution of conflicts and minimize costs for both the district and parties to a permit hearing.

H.B. 1763 sets forth uniform procedures to be utilized by groundwater conservation districts regarding the notice and hearings process for both rulemaking hearings and permit application hearings, and clarifies that districts may use ADR procedures.

RULEMAKING AUTHORITY

Rulemaking authority previously granted to the board of directors of a groundwater conservation district is modified by SECTION 3 (Section 36.101, Water Code) of this bill.

Rulemaking authority is expressly granted to the board of directors of a groundwater conservation district in SECTION 4 (Section 36.1011, Water Code).

Rulemaking authority is expressly granted to a groundwater conservation district in SECTION 3 (Section 36.114, Water Code), SECTION 12 (Section 36.116, Water Code), and SECTION 17 (Sections 36.406, 36.415, 36.417, and 36.418, Water Code) of this bill.

Rulemaking authority previously granted to a groundwater district is modified in SECTION 5 (Section 36.1071, Water Code), of this bill.

SECTION BY SECTION ANALYSIS

SECTION 1. Amends Section 16.053, Water Code, by amending Subsections (e) and (p) and adding Subsections (p-1), (p-2), (p-3), and (p-4), as follows:

(e) Requires each regional water planning group to submit to the Texas Water Development Board (development board) a regional water plan that consists of certain purposes.

(p) Requires the development board, if a groundwater conservation district (district) files a petition with the development board stating a conflict requiring a resolution may exist between a certain district's approved management plan, rather than certified groundwater conservation district management plan, and an approved state water plan, rather regional water plan, to provide technical assistance to and facilitate coordination between the district and the involved region to resolve the conflict. Requires the district and the involved region, not later than the 45th day after the date the groundwater conservation district files a petition with the development board, if the conflict has not been resolved, to mediate the conflict. Authorizes the district and the involved region to seek the assistance of the Center for Public Policy Dispute Resolution at The University of Texas School of Law or a certain alternative dispute resolution system, in obtaining a qualified impartial third party to mediate the conflict. Requires the cost of the mediation services to be specified in the agreement between the parties and the Center for Public Policy Dispute Resolution or the alternative dispute resolution system.

(p-1) Makes conforming changes.

(p-2) Deletes existing text relating to the suspension of the certification of a certain plan. Makes conforming changes and makes a nonsubstantive change.

(p-3) Authorizes the groundwater conservation district, if it disagrees with the decision of the development board under Subsection (p), to appeal the decision to a district court in Travis County. Requires the cost of the appeal to be set by the court hearing the appeal. Provides that an appeal under this subsection is by trial de novo.

(p-4) Makes conforming changes.

SECTION 2. Amends 36.001, Water Code, by striking (17) and adding Subdivisions (4-a) and (24) through (29), to define "federal conservation program," "total aquifer

(l) Provides that Subsections (b)-(k) do not apply to the Edwards Aquifer Authority.

SECTION 4. Amends Subchapter D, Chapter 36, Water Code, by adding Section 36.1011, as follows:

Authorizes the district to accept certain applications for permits, provided the district does not act on any such application until the district's management plan is approved in a certain manner.

(g) Requires the district, rather than the board, to adopt amendments to the management plan as necessary.

(h) Requires the district, in developing its management plan, to use the groundwater availability modeling information provided by the executive administrator of the board (executive administrator) together, rather than in conjunction, with any available site-specific information that has been provided by the district to the executive administrator for review and comment before being used in the plan. Deletes existing text relating to site specific information that is acceptable to the executive administrator.

Requires the Texas Natural Resources Conservation Commission (commission) to not take until the later of the expiration of the 180-day period, or a certain date. Prohibits an enforcement action from being taken against a district by the commission or the state auditor under Subchapter I (Performance Review and Dissolution) because the district's management plan and the approved regional water plan are in conflict while the parties are attempting to resolve the conflict before the development board, in mediation, or in court.
